

COLWELL SHELOR LANDSCAPE ARCHITECTURE

4450 NORTH 12th STREET
SUITE 104
PHOENIX, ARIZONA 85014

COLWELL SHELOR LANDSCAPE ARCHITECTURE, an award winning urban design and landscape architecture firm is seeking a talented individual with 5+ years of relevant professional experience to become an integral part of our growing team as a designer/project manager. The office is a fast-paced, collaborative environment that encourages design excellence and innovation. Commissions include a diversity of high quality urban/downtown plazas, institutional, historic, parks and recreation, residential and master planning projects.

Candidates shall demonstrate a high degree of competency in all areas of design, the ability to multi-task and collaborate well with others, and have a complete working knowledge of landscape architecture projects from project kick-off through planning, design, regulatory permitting, bid assistance, and construction administration.

The firm offers a team-oriented, collaborative multidisciplinary working environment, competitive compensation, and potential for significant growth within the organization.

This role requires:

- A collaborative and positive work ethic
- Project management experience including excellent time management skills, a proven track record of managing, coordinating and collaborating with clients, consultants, contractors and supervising internal team members
- A highly organized and thorough approach to work, including experience leading a team, production of high quality site plans, illustrative materials, construction documents, and other project related documents for both public and private clients.
- Experience leading client presentations and managing client and stakeholder relationships
- A thorough knowledge of design process, technical detailing and construction documentation, construction administration, grading, horticulture and planting design
- Proficiency in AutoCAD and Microsoft Office. Revit, Adobe Creative Suite, Rhino, V-RAY, SketchUp, Grasshopper preferred.
- Excellent hand and computer graphic communication skills and aesthetic sensibility
- Strong oral and communication skills
- Basic understanding of arid region plant materials.
- LA Licensure and LEED AP preferred.

Please submit a cover letter describing your work experience, design philosophy and traits that make you an excellent candidate for this position, a resume and portfolio in PDF format to:
