

Greetings,

The Udall Foundation's U.S. Institute for Environmental Conflict Resolution (U.S. Institute) is seeking two skilled professionals to serve as Program Managers or Senior Program Managers. These are full-time, permanent, Federal positions in an Excepted Service Appointment.

We are looking for dynamic, senior-level professionals with experience in the environmental, public policy, and conflict resolution fields. Successful candidates will independently lead and manage large-scale, complex, contentious, and high-profile projects. The Program Managers/Senior Program Managers will oversee contracted neutral service providers and provide direct mediation, facilitation, or training services as appropriate.

**Applications will be considered on a rolling basis. Position descriptions with required qualifications are linked below.**

One of the successful candidates will **lead the U.S. Institute's role on the Missouri River Recovery Implementation Committee (MRRIC), along with other projects.** This job is a Senior Program Manager position, at a level of compensation and responsibilities comparable to a GS-14. The preferred location is in Tucson, Arizona, although highly qualified remote candidates will be considered.

The other successful candidate will **lead the U.S. Institute's Native American and Alaska Native (NAAN) program area.** This job is a Program Manager or Senior Program Manager position, at a level of compensation and responsibilities comparable to a GS-13 or GS-14, respectively. The location for this position is Tucson, Arizona.

Travel is required for these positions.

**Please submit a cover letter, resume, writing sample, three references, and an indication of the position for which you are applying to:**

Brian Manwaring, Director

U.S. Institute for Environmental Conflict Resolution
