- Able to accept instructions, execute, and follow-up.
- Able to produce accurate work and meet deadlines.
- Working knowledge of AutoCAD, Sketchup, InDesign and Photoshop required. Revit is a plus.
- Ensure the quality of documents produced.
- Excellent communication and interpersonal skills.

About GFF:

GFF is an award-winning multidisciplinary design firm, offering Landscape Architecture, Planning, Architecture, and Interior Design. Working out of offices in Dallas, Fort Worth, and Austin, our 140 employees serve a mix of clients with projects throughout Texas and the United States. We are organized into studios that approach our projects as collaborative teams, adhering to design maxims that we all share and that allow us to achieve our mission of Creating Memorable Places. Our projects are varied in size and type, and include mixed use developments, churches, schools, civic projects, recreational facilities, community design, multi-family residential, office and retail buildings, and campus master planning to name a few. We offer an energetic and stimulating work environment, competitive salary/benefits and true advancement potential at all levels.

About the Landscape Architecture Studio:

Our Landscape Architecture studio is located within GFF's newly renovated headquarters in the vibrant Victory Park district of Downtown Dallas. Our passionate team of 5 Landscape Architects excel in the design and planning of successful outdoor spaces of all kinds, from public trail systems and prolific parks to commercial plazas and residential amenity spaces. We also offer a unique and valuable design advantage to our clients. Working side-by-side with our colleagues in other GFF studios, our collaborative multidisciplinary approach allows us to realize profound influence over the design of open spaces that tie the surrounding context together. Through thoughtful placemaking, our designs weave a story through the landscape, meant to inspire, connect, and enhance the experience of all who encounter them.

Our ideal candidate:

We are seeking a highly motivated and creative designer whose career goals align with our studio's vision. They will contribute skills and talents that are complementary to those already existing on our tightly-knit team. He or she will possess a sincere interest in attaining Licensure in the State of Texas, sustainable design, universal design, innovation, and continued education. In addition to displaying great long-term potential as part of our team, this person will value our collaborative approach, and be committed to participating in growing our studio.
