

## **Landscape Architect / Designer – 2-5 Years Professional Experience**

Corral Design Group, Inc. (CDG) is currently recruiting for a mid-level landscape architect/designer with an ability to produce quality and detailed designs as directed by Project Managers and Construction personnel and a desire to grow into senior level design and project management with CDG.

Qualified candidates include self-motivated landscape designers, and recent landscape architecture registrants of a Landscape Architecture program from an accredited university in landscape architecture, architecture, planning, or urban design. Two to 5 years professional experience post-graduation is preferred.

Candidates must be proficient in multiple design software programs (list provided below) and have strong conceptual and final design skills. Candidates must be self-starters and exhibit excellent organizational skills. We have a very dynamic and exciting company that identifies talent and encourages rapid promotion. The successful candidate will have municipal and/or Department of Transportation design experience.

**Corral Design Group, Inc. (CDG)** is a full service, Phoenix based landscape architecture and planning firm specializing in public works projects throughout the desert southwest for 20 years. CDG prides itself on its creative approach to planning and designing landscapes, hardscape, and unique destinations for municipal facilities, trails and multi-use paths, street rights-of-way, drainage facilities, and innovative sustainable solutions to our projects. Our team has developed an excellent working relationship with our clients' due to our emphasis on customer satisfaction and complete project delivery.

As an employee, you can expect clear communication on expectations, goals, and deadlines. We have a company culture that is people oriented, supportive, and fairness focused. Regular one on one mentoring time is offered with senior designers and managers. Opportunities for growth as a professional into project management is encouraged and continuing education and professional growth shall be made available.
